About Me

Modern Front-End engineer, currently using my skills as a guide for very young web development lovers to determine their direction.

The thought that my knowledge is being used by someone else, and most importantly, it is all available for everyone, is very helpful to me.

Have 3 years of experience in creating websites.

I love the power that JavaScript gives me and the way I can program styles with CSS.

Education

Now 2022 | **Javascript/Front-End Program**
Advanced Javascript, Security, Testing, Agile, Networking, and web development tools.

2019 2018 | **JavaScript on learnjavascript.ru**
Starting with the basics and including lots of JavaScript/DOM tricks.

2018 2017 | **HTML and CSS on w3schools**
Basic start for web development.

2017 2012 | **Moscow Aviation Institute**
Aircraft engineering, specialist. Design and calculation of local airline aircraft.

Skill

Code:
- HTML5/CSS3
- JavaScript/Git
- Python/Django
